

I, under signed, am Asal Akbari, holder of bachelor degree in field of applied mathematics from Sabzevar Hakim University in 2004.

Beside to i have calligraphy diploma from Iran calligrapher committee in 1999.

Suddenly i began my work in the field of design and sewing leather from 2017. Firstly i started to swing bag band due to desire to art specialy hand craft arts with limited tools. Then due to desire to swing, my desive to design and model of leathers have been increased. With search and exercise in various sites and pages of Instagram and participate in two courses, i obtained necessary skills and continued my work with trial and error.

I use the term of hand craft to my work and attempt to observe all obligations. There fore, my samples are made manually from begining of cutting leather to paint edges and producing thin parts, puncture and swing. To design, i image related work and produce it with proper size.

The important issue that should be emphasised is my desire to this work that help to me to cope problems and challengs. There fore it is very desirable and attractive to me. My goal is obtainig more knowledge and improving this proffesion.

Econom0cal and financial aspects are other priorities. I hape you see and enjoy my work. With thanks.
